The firm order backlog for Airbus' A320 family of narrowbody airliners totaled 6,056 aircraft at the end of 2018, down only slightly from the 6,141 aircraft in the backlog at the end of the prior year. The total included orders for 5,891 NEO family aircraft. Airbus is increasing production of the A320 family to 60 aircraft per month in 2019.

### A320 Home Simulator

First up is this Airbus A320. Now, you'd probably think that creating a template of a smaller aircraft such as this would be much easier than some of the bigger airplanes I've been doing recently, and you'd be right - to a point. The difficulty comes when you factor in all the variants of the A320. There are two engines available (v2500 ...

The Airbus A320 family are narrow-body airliners designed and produced by Airbus.The A320 was launched in March 1984, first flew on 22 February 1987, and was introduced in April 1988 by Air France.The first member of the family was followed by the longer A321 (first delivered in January 1994), the shorter A319 (April 1996), and the even shorter A318 (July 2003).

### Airbus A320 family - Wikipedia

The Airbus A320 (bottom) vs the Airbus A320neo (top). But unlike Boeing, who has moved 737 production onto their ill fated 737 MAX series, Airbus actually offers two versions of the A320, the original A320ceo and the newer A320neo. The older 'ceo' stands for current engine option, while the 'neo' is the new engine option.

Also integral to the A320 is the advanced electronic flightdeck, with six fully integrated EFIS colour displays and innovative sidestick controllers rather than conventional control columns. The A320 also employs a relatively high percentage of composite materials compared to earlier designs. Two engines are offered, the CFM56 and IAE V2500.
