## Articulation And Phonological Disorders ...

Historically, these disorders are referred to as articulation disorders and phonological disorders, respectively.

Articulation disorders focus on errors (e.g., distortions and substitutions) in production of individual speech sounds.

Phonological disorders focus on predictable,

## Articulation And Phonological Disorders vs. Phonological Processing ...

Articulation disorders manifest when a child has difficulty producing a specific sound (or sounds) and are remediated by addressing the sound (s) in error.

Phonological disorders are more complex, as they are patterns in a child's speech used to simplify speech sound production.

Phonological Disorder  
Prognosis. All situations  
are different, so we  
cannot provide a  
specific prognosis for  
improvement. In  
general, like  
articulation disorders,  
the prognosis of  
phonological disorders  
depends on the cause  
and severity of the  
disorder. In many  
cases, phonological  
errors can be  
eliminated completely  
with treatment and
