Asset Management Excellence (2nd ed.) by Campbell, John D ...

Owning costs make up between 25 and 30 percent of the total cost of owning and operating a fleet. It is a big portion and, fortunately, a manageable portion. Most of the costs are defined when you ink the deal, and most of the money is spent up front when you take possession of the asset and put it to work. There are not a lot of uncertainties, but there are a lot of complexities, so careful ...

The Challenge of Optimizing Fleet Owning Costs ...

A well-rounded asset integrity & liabilities management program improves operational efficiency, optimizes resources, reduces risks, improves uptime and maximizes ROI on asset investments. The data and analytics from the asset management system should help the organization make better decisions and plan for the future.
