Awakenings Oliver Sacks

Awakenings is the remarkable account of a group of patients who contracted sleeping-sickness during the great epidemic just after World War I. Frozen in a decades-long sleep, these men and women were given up as hopeless until 1969, when Dr. Sacks gave them the then-new drug L-DOPA, which had an astonishing, explosive, "awakening" effect. Dr. Sacks recounts the moving case histories of these individuals, the stories of their lives, and the extraordinary transformations they underwent ...

Awakenings | Oliver Sacks, M.D. | Author, Neurologist | On ...

Awakenings is a 1973 non-fiction book by Oliver Sacks. It recounts the life histories of those who had been victims of the 1920s encephalitis lethargica epidemic. [2] Sacks chronicles his efforts in the late 1960s to help these patients at the Beth Abraham Hospital (now Beth Abraham Health Services) in the Bronx , New York .

Awakenings (book) - Wikipedia

It hardly seems fair that so many great doctors are also great writers. Perhaps it's qualities like sensitivity, craft, and dedication that keep physicians like Oliver Sacks in hospitals all day and at writing desks all night; if nothing else, these qualities shine in books like Awakenings. This powerful set of case histories rises above its pathological foundation to find new literary territory, a medical-spiritual synthesis equally stimulating for the mind and the soul.

Awakenings is a 1990 American drama film based on Oliver Sacks 's 1973 memoir of the same title. It tells the story of a fictional character, Dr. Malcolm Sayer, which is based on a real life experience of the author, who, in 1969, discovers beneficial effects of the drug L-Dopa.

Awakenings - Wikipedia

Neurologist and author Oliver Sacks brings our attention to Charles Bonnet syndrome — when visually impaired people experience lucid hallucinations. He describes the experiences of his patients in heartwarming detail and walks us through the biology of this under-reported phenomenon.

Oliver Sacks, M.D., Author, Neurologist | Official Website ...

Oliver Wolf Sacks, CBE FRCP (9 July 1933 – 30 August 2015) was a British neurologist, naturalist, historian of science, and author. Born in Britain, and mostly educated there, he spent his career in the United States. He believed that the brain is the "most incredible thing in the universe".

Oliver Sacks - Wikipedia

Oliver Sacks (who died this year) was very vocal about the way he thought doctors came up short when dealing with patients, aka human beings. He railed against them for treating people separately from their disease, and treating a disease, e.g. cancer, like it was the same for every patient.
