Car Body Repair for Profit & Pleasure, Taylor, Jack, eBook

...

To measure profit margin, use the auto repair shops net income divided by the total sales generated. For example, the auto repair shop had a net income of \$100,000 and generated \$500,000 in sales. To determine the store's profit margin, divide the net income (\$100,000) by the total sales revenue (\$500,000) and the store has a 20% profit margin - $\$100,000/\$500,000 = 0.20$ or 20%.

Look again at the sample P&L. Overhead is all of those expenses that you would have to pay even if you didn't repair a car. To calculate BEP, divide overhead by the current gross profit percentage,...

Back to Basics: Financials - BodyShop Business

The sale of parts does make auto-body shops money—but maybe not as much as you would think. On average, according to the Body Shop Business website, the sale of parts generates between 36 to 44 percent of sales proceeds, while parts produce only 20 to 28 percent in profit margin. The reason for this has to do with style and control.
