### Elsafe Ser Error

The code : "ser" means the safe requires service. If this is a safe in hotel you are at, you should go to the concierge to get it unlocked. This is not a problem since elsafe has SafeLink, a infrared remote that unlocks the safe in emergencies. If you bought this safe you should have gotten an e-key which opens the safe without the code.

No, we recommend that you allow 25% for a "Margin of Error" on any of our power supplies. This 25% allows for the current draw of the charging circuit as well as possible extra draw from long cable runs, etc. Therefore, 750mA is the largest load we would recommend for the BPS-12-1. The appropriate supply for your application is the BPS-12-3.

You know not to leave your valuables out in plain view when you leave your hotel room and to use the hotel room safe to secure them. Thefts of valuables from hotel room safes, while not rampant, are a real problem, even in the best of hotels. Master keys, master key cards, and override codes in the wrong hands make it easy to open a hotel safe fast and easy.
