This is why I recommend following the MinnieMaud Calories Guidelines, or as it is called now - the Homeodynamic Recovery Method (HDRM) (7). Because, if I just say “eat as much as you want” many end up eating too little, consciously or unconsciously restricting their intake. 2000 calories a day is not enough to recover from and eating disorder (8).

### Overshooting Set Point Weight In Eating Disorder Recovery

Recovery from an eating disorder can be a long process that requires not only a qualified team of professionals, but also the love and support of family and friends. It is not uncommon for someone who suffers with an eating disorder to feel uncertain about their progress or for their loved-ones to feel disengaged from the treatment process.

### Stages of Recovery | National Eating Disorders Association

In fact the Homeodynamic Recovery Method Guidelines have intake levels that are only applicable to those who are specifically not recovery from an eating disorder. The issue is not whether you are clinically underweight or not. The issue is whether you are underweight relative to what your body deems is your optimal weight set point.
