The Progress And Development Of

Progress is upward growth in economic status; however, progress is still an on-going process. Development, meanwhile, is the aftermath and the effect of progress. In development, there is a human and social factor. It measures whether how much of society benefited from the economic growth or progress. In a way, development and progress have a symbiotic or a two-way relationship.

Difference Between Progress and Development | Difference ...

Income, growth and prosperity were accepted as key indicators of progress and development till the first half of the twentieth century. This was a preoccupation of classical economists. But in present century there is a great conflict, which relates development with equality, growth without equitable distribution and prosperity alongside rising gender inequalities.
