SAP S/4HANA On Premise 1709 Upgrade Guide | SAP Blogs

In summary, the more an upgrade decision is driven by business improvement aspects, the higher is the expected ROI. Upgrade experiences and customer statistics prove that a mix of business, technology and strategic criteria usually determines the decision for an SAP upgrade.

Upgrade Information - SAP

The upgrade from 1809 to 1909 is only a technical system upgrade. A content lifecycle compatible upgrade in an On Premise system is not supported in the SAP Best Practices Solution Builder. After the technical upgrade, we recommend activating SAP Best Practices in a separate client and running a FIT/GAP analysis of the current Customizing.

SAP Help Portal

The Software Update Manager is not only for updating SAP software, but also for updating customer releases. To make use of the Customer Transport Integration (CTI), a customer buffer file need to be provided to SUM. The easiest way to generate a customer buffer file is using the so-called Upgrade Transport Integration Wizard.
